

Doc Rock's Crystal Program

Learn why minerals have so many beautiful color variations.

Minerals can be cut, polished and made into beautiful jewelry.

- Grow real crystals!
- Touch minerals and learn about their physical properties (hardness, luster, crystal form, cleavage, fracture)
- Learn how some minerals are gem stones and are used in jewelry
- Learn how amber forms

*Dr. Barbara Frank,
a.k.a. Doc Rock*

Dr. Barbara Frank, a.k.a. Doc Rock, is a geologist and educator dedicated to helping young and old connect to Planet Earth in fun-filled interactive ways such as Dinosaur Programs and the Earth Detective Experience!
